

Make one set of business size cards for each small student group. If you make each group of cards a different color, it will be easier to separate mixed up groups. If you want to reuse the cards over the school day or in multiple years consider using card stock. Cards for “Lesson 5: Who eats whom?” are cards 1-16. Cards for "Lesson 8: What size is it?" are cards 1-32. Cards for “Lesson 10: How are organisms related?” are cards 1-28. Cards for “Lesson 11:Disturbance and Dispersal” are cards 1-32.

Make one set of 4x4 classroom cards for use on the printed or projected posters. Consider using magnetic paper (e.g. Avery® Magnet Sheets 3270, 8-1/2 x 11, White, Pack of 5) to make board work easier.
